2023-2024

BOARDS, COMMITTEES AND REPRESENTATIVES

Membership Committee

**Description:** The Membership Committee determines the eligibility of applicants for membership in the ASC, recommends those qualified for membership, and plan/implement strategies to recruit new junior and full medical members.

**Responsibilities**
- Create programs and outreach “drives” to recruit new members to the ASC
- Review membership applications and approve qualified applicants for ASC membership.
- Assess and recommend enhancements to the value of ASC membership.
- Monitor growth and attrition rates by membership category.
- Reach out to new cytopathology fellows through Program Directors to encourage membership.
- Reach out to new cytotechnology students and recent graduates to encourage membership.
- Outreach and follow up with former ASC members with lapsed memberships.
- Host and develop a program for the First Time Gathering at the ASC Annual Scientific Meeting.

**2023-2024 Initiatives**
- Create ways to engage new members throughout the year and at the Annual Scientific Meeting.
- Develop a marketing plan to increase cytotechnologist membership and international membership.
- Outreach and develop strategies to address the most common reasons for dropped ASC membership.
- Assist ASC staff in developing prospective member recruitment initiatives.
- Create a vibrant and interactive networking opportunity for the 2024 Meeting.

**Membership Committee**
