

DODDS-DONNER LECTURE

Year	Name	Title/Topic
2019	Joel Richter, MD	The Patient with Dysphagia: In the Future, Who Will Take Ownership?
2018	Joan C. Arvedson, PhD, CCC-SLP	Infants & Children with Dysphagia: What do we know? What do we need to know?
2017	Jeffrey B. Palmer, MD	Eating and Swallowing Solid Food: A Physiological Approach
2016	Jonas T. Johnson, FACS	The Importance of Dysphagia in Head and Neck Practice
2015	Stephen F. Badylak, DVM, PhD, MD	A Regenerative Medicine Approach for Functional Esophageal Reconstruction
2014	Rebecca Z. German, PhD	Clinical Significance vs. Statistical Significance: What Do Our Results Mean?
2013	Rebecca J. Leonard, PhD	Building Bridges – Growing a Team
2012	Reza Shaker, MD	A Global Evolution: Past, Present and Future of the Dysphagia Research Society
2012	Bronwyn Jones, MD, FRACP, FRCR	A Global Evolution: Past, Present and Future of the Dysphagia Research Society
2012	Barbara C. Sonies, PhD, CCC-SLP, BRS-S	A Global Evolution: Past, Present and Future of the Dysphagia Research Society
2012	Rosemary Martino, MA, MSc, PhD	A Global Evolution: Past, Present and Future of the Dysphagia Research Society
2011	John C. Rosenbek, PhD, CCC-SLP	The Past Is All We Can Know of the Future
2010	Fred M.S. McConnel, MD	A Surgeon's Perspective of Pharyngeal Swallowing Gained from Manofluorography
2009	Walter Hogan, MD	The Dodds Legacy - The Man, the Mind, the Mentor
2008	Donald Castell, MD	Clinical Importance of Non-Acid Reflux: Studies Performed with Combined Impedance-pH Monitoring
2007	Bronwyn Jones, MD	Dysphagia and systemic disease
2006	Arthur J. Miller, PhD	Mechanisms and Strategies for Altering and Modulating Swallowing: Neuroscience Perspective
2006	Donald Castell, MD	Mechanisms and Strategies for Altering and Modulating Swallowing: Neuroscience Perspective
2005	No DRS Meeting	
2004	James B. Lund, BDS, MD	Neural Control of Mastication
2003	Raj Goyal, MD	Physiology and Pathophysiology of the Lower Esophageal Sphincter
2002	Shaheen Hamdy, MD	Human Swallowing as a Model for Cortical Plasticity in Health and Cerebral Injury
2002	Leonardo G. Cohen, MD	Mechanisms Underlying Human Motor System Plasticity
2002	Arthur J. Miller, PhD	Neurophysiology of Swallowing: where are we now?
2001	JoAnne Robbins, PhD	Salubrious Senescent Swallowing: One Facet of a Positive Health Agenda for this Decade

2000	Reza Shaker, MD	Functional Relationships of the Aero-digestive Tract
1999	John Dent, MD, PhD	Mechanical Function of the Gastroesophageal Function in Dysphagia and Reflux What Really Matters
1998	Peter Kahrilas, MD	The Upper and Lower Esophageal Sphincters: Similarities and Differences
1997	Andre Jean, PhD	An Integrative Overview of the Central Control of Swallowing
1996	Jeri A. Logemann, PhD	Evolution of the Physiological Basis for Evaluation and Management of Dysphagia
1995	John A. Kirchner, MD	Comparative Anatomy of the Larynx
1994	Reza Shaker, MD	Airway Protective Mechanisms: Current Concepts
1993		Muscarinic Receptor Regulation of the Esophagus and Lower Esophageal Sphincter - from beach to bedside
