	Statistics/ Epidemiology	3
10 of the 150 questions in paper A and Paper B will relate to paediatrics. These may be in any of the subject areas	Paediatrics	10 questions in total

Each question is of the single best answer (from a choice of 5) format.

Some questions are short and factual. Other questions describe a clinical scenario (or vignette) providing information that you should consider. The scenario is then followed by a question aimed at testing your applied medical knowledge.
