

Transmissible Diseases Handbook

LIST FACTSHEETS

Viruses

1. Adenovirus
2. Adenovirus in reptiles
3. African horse sickness
4. African swine fever
5. Aujeszki's disease or pseudorabies
6. Avian pox
7. Bluetongue
8. Bovine viral diarrhea/ border disease virus
9. B-virus
10. Callitrichid hepatitis (lymphocytic choreomeningitis virus)
11. Canine distemper
12. Cattle plague
13. Classical swine fever
14. Contagious bovine pleuropneumonia
15. Contagious ecthyma
16. Cowpox
17. Cytomegalovirus
18. Ebola or Reston Viruses
19. Encephalomyocarditis virus
20. Endotheliotropic Elephant Herpesvirus Infection
21. Epstein barr virus
22. Exogenous simian type D retroviruses
23. Fibropapillomatosis sea turtle
24. Foot and mouth disease
25. Goat plague or Peste Des Petits Ruminans
26. Gray patch disease
27. Hepatitis A virus
28. Hepatitis B virus
29. Herpesvirus infections in tortoises
30. Herpesvirus infections in water turtles
31. Herpesvirus hominis
32. Herpesvirus tamarinus
33. Highly pathogenic avian influenza
34. Inclusion body disease
35. Infectious hematopoietic necrosis
36. Kyasanur Forest Disease
37. Loggerhead genital respiratory herpes
38. Loggerhead orocutaneous herpes
39. Lumpy skin disease
40. Lung-eye-trachea disease
41. Malignant catharral fever
42. Marburg Virus Disease
43. Measles
44. Monkeypox
45. Newcastle disease
46. Parvovirus
47. Polymyxovirus infection (ophidian)
48. Poliomyelitis
49. Rabies
50. Ranavirus Infection In Amphibians
51. Respiratory Syncytial Virus/ Chimpanzee Coryza Agent
52. Rift Valley Fever
53. SA 8
54. Seal morbilliviruses

55. Sheep and goat pox
56. Simian hemorrhagic virus
57. SIV
58. Spring viremia of carp
59. STLV-1 (PTLV-1)
60. Swine vesicular disease
61. Tanapox
62. Varicella viruses (simian)
63. Vesicular exanthema of swine
64. Vesicular stomatitis
65. West Nile virus
66. Yaba virus
67. Yellow fever

Bacteria

68. Anaplasmosis (Bovine)
69. Anthrax
70. Avian mycobacteriosis
71. Avian tuberculosis in mammals
72. Bordetellosis
73. Botulism
74. Brucellosis (Bovine)
75. Brucellosis (Porcine)
76. Campylobacteriosis
77. Chlamydiosis (psittacosis, ornithosis)
78. Chlamydia abortus
79. Coxiellosis or Q-Fever
80. Edwardsiellosis
81. Erysipelas
82. Group C Streptococcosis
83. Klebsiellosis
84. Leprosy
85. Leptospirosis
86. Leptospirosis in Primates
87. Listeriosis
88. Melioidosis
89. MRSA
90. Mycobacteriosis in fish
91. Paratuberculosis or Johne's Disease
92. Pneumococcosis

93. Salmonellosis
94. Shigellosis
95. Tetanus
96. Tuberculosis (Primates)
97. Tuberculosis (Ungulates)
98. Tularemia
99. Yersiniosis

Parasites

100. Acanthamoebiasis
101. Acanthocephalan infections
102. Amoebiasis
103. Anatrinosomiasis
104. Ancylostomiasis or Hookworm Disease
105. Angiostrongylosis
106. Babesiosis (bovine)
107. Baylisascariasis
108. Bertiellosis (Tapeworms)
109. Capillariasis
110. Cryptosporidiosis
111. Echinococcosis
112. Helminthiasis of ungulates
113. Leishmaniasis (visceral)
114. Lung mites infections
115. Microsporidiosis
116. Oesophagostomiasis
117. Oxyuriasis
118. Plasmodium knowlesi (Malaria)
119. Piroplasmiasis (equine)
120. Schistosomiasis
121. Screwworm (New world)
122. Screwworm (Old world)
123. Spiruroidosis
124. Strongyloidosis
125. Theileriosis (Bovine)
126. Toxoplasmosis (General)
127. Toxoplasmosis (Primates)
128. Trichostrongylosis
129. Trypanosomiasis

Fungi

- 130. Chytridiomycosis (amphibian)
- 131. Cryptococcosis
- 132. Pneumocystosis

TSE's

- 133. Chronic Wasting Disease
