- Greece
- Northern Ireland
- Republic of Ireland
- Scotland
- Slovenia
- Spain – Valencia
- Spain - Galicia
- Spain – Catalonia
- USA - New York

Launching in 2017

- Austria
- Canada
- Croatia
- Denmark
- Finland
- France
- Germany
- Netherlands
- Spain
- Wales
- USA
## ECHAlliance Ecosystem priorities (samples)

<table>
<thead>
<tr>
<th>Region</th>
<th>Focus Areas</th>
</tr>
</thead>
</table>
| Yorkshire & Humber (England)  | - Local digital roadmap – procurement  
                                | - Patient flow – safety  
                                | - Mobile working  
                                | - Self-management |
| Valencia – Spain              | - eHealth & Wellness  
                                | - Chronic Disease Management  
                                | - Health Tourism  
                                | - Personalized Medicine |
| Digital Health Scotland       | - Self-Management (long term illness e.g. diabetes)  
                                | - Decision Support (digital tools, less clinical knowledge e.g. paramedics)  
                                | - Digital alternatives for Wellness  
                                | - Care in the Home setting |
| North West Coast (England)    | - Mental Health & Wellbeing  
                                | - Medicines Management  
                                | - Care in the Community |
To provide a platform for stakeholders, responsible for a given topic area, to meet, promote and advance their work across the ecosystem network, therefore maximising knowledge sharing and best practice.

ECHAlliance is appointed Strategic Partner to the Estonian eHealth Presidency

Estonian Ministry of Social Affairs has appointed the ECHAlliance to assist them in preparations for the e-health conference "Health in the Digital Society. Digital Society for Health" taking place during the Estonian Presidency of the Council of the European Union.

Tallinn will bring you the latest developments in three hot topics:

- Building citizen-driven demand in eHealth
- eHealth supporting the value driven and sustainable health and social services
- eHealth as a driver of innovation and economic development

The topics of discussion will include:

- Giving citizens access and more control over the use of their health data
- Cross-border exchange of health data
- Making better use of health data for research and innovation
- Creating the right conditions for a digital single market in health – interoperability, cybersecurity, data protection

Consultation on investment in innovative digital solutions for Active & Healthy Ageing – have your say!

The European Innovation Partnership on Active and Healthy Ageing, supported by ECHAlliance, has just launched a short online consultation with any organisations that are actively deploying and implementing large-scale, sustainable, digitally-enabled innovative solutions for Active and Healthy Ageing.

The consultation was launched to identify plans for investment (both committed and potential) in the implementation of innovative solutions for Active and Healthy Ageing 2017 – 2020.

The consultation will inform the creation of an Investment Map illustrating the EU investment potential in this area, contributing to the EIP on AHA Policy Dashboard.

Submission of responses is via Online Consultation:

Save the date for the Digital Health around the Globe 2017 in Beijing, 28 – 29 September 2017

The China Consortium Health Alliance (CCHAlliance) will organise in 2017, the Digital Health around the Globe (DHG2017) at the long established PTExpo (27-30 September, 2017), a large international event gathering thousands of leaders with the IT and telecommunications industry and organised by the Ministry of Industry and Information Technology.

This Digital Health conference will showcase best Chinese and European initiatives and key leaders around 3 topics:

- Big Data
- Traditional Medicine
- Wellbeing & Healthy living (2030 Healthy China)

ECHAlliance will represent Europe. Also, it will organise a roundtable about the International Network of Ecosystems, a highly successful European Network of permanent multi-stakeholders groups including Government, Policy Makers, industry and SMEs, healthcare providers and academia.
