Eastern States Insulation Contractors of America
123 South Street Suite 112
Oyster Bay, NY 11771-2259

Dear Friends:

It is my privilege to thank you for your generous contribution to mesothelioma research at Fox Chase Cancer Center. For years, insulators' unions the region over have provided critical support to research against this dire disease while keeping alive the memory of lost friends and family. We are gratified that you have once again chosen to support the work of Dr. Joseph Testa and his colleagues, who continue to be national leaders in the fight against mesothelioma.

We are of course grateful for all of the support our donors provide for highly common cancers, but there is also a need for funding and advocacy of rare, unusual cancers that are farther from the public eye. Your designation toward mesothelioma research will shed light on this under-discussed disease, and most of all, it will ensure that our researchers can continue to make advances that will benefit patients. Thank you so much for your sustaining support, and for the trust and confidence that it conveys.

Sincerely,

A handwritten signature in black ink, appearing to read 'Thom Harmon', written over a horizontal line.

Thom Harmon
