

Where to rent or buy a helmet

Note: this information sheet was prepared in July 2018 and may not be completely up to date. We will be updating and re-posting this page by April 2019.

The following companies rent or sell Snell SA2010 and SA2015 rated full face (recommended) helmets from various manufacturers. *Ferrari Club of America does not endorse specific businesses; we offer this list as a convenience.* If there is a race shop in your area, we recommend visiting them and being properly fitted to determine your helmet size.

As an alternative to renting, you may wish to consider purchasing your helmet, since SA2010* full face helmets are available for as little as \$99, and SA2015 rated versions start at about \$230.

* Snell SA2010 helmets will remain qualified for HPDE and racing use until SA2020 rated helmets become widely available, probably around 2021 or so.

Race Suit Rentals (St. Paul, MN)

Race Suit Rentals will ship your helmet directly to your home (or hotel) and include rental return instructions. Shipping (both ways for rentals) is included in the rental price (\$75). For rentals, they will also charge a \$200 deposit to your credit card, credited back upon return of the helmet.
