The Florida Board of Professional Engineers (FBPE) has determined that all professional engineers (PE) have to acquire and use a seal that complies with all terms of the current Rule 61G15-23.001.

Pursuant to Section 471.025, F.S., the samples shown above represent seals that are acceptable to the Florida Board of Professional Engineers (FBPE) for the signing and sealing of final documents being filed for public record or being supplied to the owner or his representative. The seal must be a minimum of one and seven-eighths inches (1-7/8") in diameter.

As of November 16, 2009, FBPE will accept rubber stamp seals.
