Regional Flood Management Planning

Multi-benefit Projects

City of West Sacramento’s Regional Trails Initiative (RTI)
West Sacramento Southport Project
West Sacramento Southport Project

- 5.6 miles, 3.8 miles of setback levee
- Requires acquisition of over 300 acres
- Creates opportunity to restore over 120 acres of floodplain
- Avoids significant environmental impacts
- Creates recreation opportunities
Physical, Regulatory and Policy Constraints

- Land Use
- Parks & Recreation
- Mobility
- Natural & Cultural Resources

Stakeholder Engagement
Bees Lakes

Another opportunity identified…
RTI: Integrate with City’s 2018 Bike, Pedestrian and Trails Master Plan
Integrating:

- Setback Levee
- Class 1 Bike Path
- City’s Trail network
- Integration with planned development
- Permitting
- Trail Access and Connections
- Real Estate
Clarksburg Branchline Trail (future Class 1 Bikeway)
Converting Levee Crown to Class 1 Bike Path
