3:00	Meeting Adjourns	

NEW EXHIBIT FORMAT – In an effort to revitalize the **Industrial Symposium**, we have changed the layout of the exhibit hall. The 2019 Industrial Symposium will feature **Table-Top Exhibits** rather than 10x10 booths as we have done previously. These **Table-Top Exhibits** will be located in the Networking Area where the attendees will get coffee, breakfast, and snacks and these less-formal exhibits should invite more conversation and networking between the exhibitors and attendees.

Exhibit registration has also been simplified. You will simply register and choose the optional “Table-Top Exhibit” \$100 add-on (electricity is optional and payable to the Classic Center). That’s it! More information will be forwarded to each Exhibitor once they sign up and your exhibit Table-Top Exhibit location will be first come, first served at the Symposium when you arrive to set up your display.
