## **TELEHEALTH WITH THE VIRTUAL CARE GROUP**

GICA has partnered with The Virtual Care Group (VCG) to offer specialized pricing for medical and mental health services to GICA campuses 24/7 through a turnkey telehealth solution. VCG combines the highest quality clinicians with an advanced technology platform to promote high customer satisfaction and participation. Board-certified physicians and licensed counselors support the needs of students, faculty, and staff at more than 100 colleges and universities throughout the country. Their services come highly recommended by several GICA institutions who use VCG to provide services to their campus communities. VCG leads the industry in setting up telehealth operations within 24 hours, expanding campus health center resources and providing safe, affordable, private, and convenient healthcare.

This pricing agreement offers significant discounts to GICA schools who would not qualify for such pricing on their own, and each institution can choose which student, faculty, and staff populations are served by which services. For more information, pricing, and to arrange a meeting about how VCG can assist your campus, please contact [Danny Zusman](#) at 310-365-5222.
