

GOCA/GICA Response to COVID-19

GOCA/GICA's Board of Directors is committed to the health and safety of all association members, particularly during these unsettling times. While we postponed our spring conference in Madrid for the safety of our members, staff, speakers and sponsors, we remain actively engaged in projects that provide value to GOCA/GICA members. The Board of Directors constantly monitors trusted sources of information regarding the physical and economic health of the countries impacted by COVID-19, and is working daily to provide benefit to members. In the coming days and weeks, in the effort to provide information useful to members, GOCA/GICA will share content via its website and social media outlets that is relevant to all of the business communities of which we are a part.

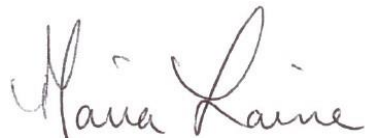

It is vital to our individual and collective success to remain connected. GOCA/GICA also calls upon its longtime members to assist the association in providing advice and counsel to all members – particularly the association's newer members – as it concerns best business practices during times of crisis.

Let us know what issues your business is facing and any questions you have for fellow members of the association. Let us draw on decades of global experience and help each other get through this crisis.

As always, should you have any questions or concerns, please contact the GOCA/GICA Secretariat at goca@globaloffset.org.

Thank you.

Stay safe and healthy!

A handwritten signature in cursive script that reads "Maria Laine". The signature is written in black ink and is positioned above the printed name and title.
