## EXPERIENCE

Coordinator II – Anne Arundel County Recreation & Parks - 2026

- Performed Park maintenance, litter removal, and general site upkeep.
- Inspected and repaired playground equipment to maintain safety compliance.
- Operated chainsaws, pole saws, woodchippers, leaf blowers, and trimmers.
- Trained and supervised new staff and inmates on tool use and safety practices.

Heavy Equipment Technician II – Sunbelt Rentals - 2023–2025

- Performed PM services, safety checks, and full mechanical repairs on diesel and gas-powered equipment.
- Rebuilt hydraulic pumps, cylinders, valves, starters, alternators, and cooling components.

- Completed brake repairs, steering adjustments, drivetrain service, and undercarriage maintenance.
- Diagnosed electrical faults including shorts, opens, sensor failures, and charging issues.
- Managed service order intake, parts tracking, and repair documentation.
- Operated excavators, skid steers, loaders, manlifts, bulldozers, forklifts, and compact equipment.

#### Diesel Technician I – Travel Centers of America - 2022–2023

- Inspected and repaired diesel engines, brakes, electrical systems, and drivability issues.
- Performed PM services on heavy-duty trucks and trailers.
- Diagnosed lighting circuits, ABS systems, and trailer electrical issues.
- Replaced alternators, starters, tires, batteries, wiring harnesses, brake chambers, and air bags/springs.
- Communicated repair needs and timelines with drivers, service advisors, and fleet managers.
- Responded to emergency roadside service calls.
- Trained new technicians on safety and diagnostic procedures.

#### Automotive Technician I – AAA - 2020–2022

- Performed routine maintenance, battery testing, tire services, and full vehicle inspections.
- Supported senior technicians with brakes, suspension, cooling systems, and electrical troubleshooting.
- Operated diagnostic scan tools and provided roadside assistance.

#### Maintenance Technician – Residential One - 2018–2020

- Performed HVAC basic troubleshooting and repairs and installation thermostats, blower motors, ducts.
- Cleaned coils, cleared drain lines, checked capacitors, contactors, relays, and wiring.
- Assisted with airflow diagnostics and identifying frozen coils or short cycling.
