Objective

To obtain a position as an HVAC apprentice. HVAC apprentice license #142078. Application completed to begin classes at Harford Community College Fall 2026.

Education

2014-2019 Perry Hall Christian High School Schroeder Ave Perry Hall MD-Grade 9-12

2019-2020 Harford Community College Bel Air MD- Audio Production

Special Training

2020 **Earlbeck Technologies**

Fundamentals of Welding

Intermediate Shielded Metal Arc Welding

2021 **Earlbeck Technologies**

Intermediate TIG Welding

2023 **Harford Community College**

Forklift Certification

2024 **84 Lumber**

Lumber Sales Camp

Employment

2021

Amazon Warehouse

Responsibilities:

- Assorted warehouse duties such as sorting, loading, unloading delivery vehicles

10/2021 - 6/2023

Middle River Aerostructure Systems- Aviation Assembler -certified

Responsibilities:

- Works from blueprints, tool write-ups, lofts, sketches, verbal information, etc. to perform assigned duties.
- Performs assembly of a major production subassembly* and operations of similar complexity where the work involves assembly or installation without the aid of tools, or the existing tools do not locate all parts and assemblies and the specifications necessitate fitting and adjusting of parts or details, coordinating of location of many details and similar duties.
- Determines location, position, accuracy of fit, conformity to contour, etc., of parts and assemblies by comparison with blueprints and/or lofts. Reams holes where no tool is provided, or where extremely close tolerances must be held.
- Fairs outer surfaces where the contour of the work surface is formed into compound angles and reverse curves by working the frames or sunken areas into smooth contour and correct position.
- Performs the more difficult types of riveting operations including riveting in areas where accessibility is very difficult. Suggests and uses special types of bucking bars and/or riveting tools as required to accomplish assigned tasks. Adjusts and operates Drivematic, Erco, and similar riveting machines.
- Makes repairs, replacements and alterations in accordance with engineering and/or Quality Control requirements on work performed by self or other employees when such operations entail work as specified above.
- Prepares surface areas for the application of adhesive and/or sealing compounds by wiping clean with solvent.
- Applies primer and adhesive to surface, installs parts and material, and assures proper fit.
- Seals parts by applying proper sealant, lays parts together and uses clamps, screws and fasteners as required.
- Visually checks parts to assure proper application of sealant.
- Performs initial assembly of parts in minor assembly tools to ascertain location, fit, clearance, etc., of parts in tool and to prove the method and sequence of work operations.

- Uses check tools, fixtures, inspection gauges, and precision measuring devices to acquire product acceptance data. Enters such data into the Improved Inspection System (IIS).

8/23 - 10/23

Davis Ulmer- Reliance Fire Protection- Sprinkler Fitters Apprentice

- Assisted Journeyman with various delegated duties.

12/2023 - 1/2024

Katalyst Staffing Agency- BD- Assembler 2 Instruments

- Short term assignment assembling

2/2024 - 8/2024

84 Lumber-Manager in Training

Responsibilities:

- Sales in a retail environment
- Freight handling and forklift training, certification, and operation
- Creating material estimates from blueprints
- Maintaining and merchandising store inventory
- Invoicing, Inventory and POS Systems
- Reading blueprints and creating material lists
- Responding to common inquiries or complaints from customers

9/2024 - 12/2024

Parker Meggitt- Composite Assembler II (Layup)

Responsibilities:

- Prepares tooling/fixtures used for fabrication and coupon testing.
- Operates standard equipment to remedy in-process conditions such as excess or insufficient resin, trapped air pockets or delamination.

- Prepares ingredients such as resins, catalysts, fillers, accelerators and colors, according to process.
- Sets up and operates forming machines and presses, or laminates plastic cloth and resins or premium pregated cloth onto layup mold or bonding fixture, to shape parts.
- Wraps bonding fixture or mold in vacuum bagging materials, attaches fittings to mold or fixture, such as vacuum connections, thermocouples, and probes, and exhausts air from vacuum bag to prepare lamination for curing or bonding.
- Cuts material to size using shears, knives, cutters, scissors, router, or saw.
- Lays out cutting lines on materials, such as sheet stock, fiberglass or core maximum, following template pattern, blueprints, sketches or sample part, using measuring and marking instruments.
- Set-up and operate curing ovens and autoclaves to meet defined objectives as needed.
- Cures product either under heat lamps or in oven, hooking appropriate heat and cooling lines, adjusting steam pressure and water valves as needed.
- Verifies work using verniers, height gauges, dial indicators, micrometers, etc.
- Performs structural testing utilizing mechanical test equipment to verify bond line integrity.

1/2025 – 4/2025

AliMark Acquisitions-Management Trainee-AT&T wireless sales at Costco

Responsibilities:

- **Training & Development:** Participate in a structured training program that will teaches sales techniques, product knowledge, and strategies to drive revenue growth.
- **Customer Acquisition & Retention:** Assist the sales team in prospecting new customers, managing leads, and ensuring the retention of existing clients through exceptional service.
- **Collaborate with Sales Teams:** Work alongside the sales team to develop promotional strategies, identify market trends, and execute campaigns aimed at increasing sales and brand awareness.
- **Product Training & Knowledge:** Gain in-depth knowledge of our products or services to provide effective solutions to clients and drive sales.
