

NL7T-360 EDUCATION CHROMEBOOK WITH IPS TOUCHSCREEN

The CTL NL7T-360 Education Chromebook has been updated to include a stronger, thicker rear cover and powerful Intel Celeron Dual Core N3350 Processor (2.2 GHz, 2MB Cache). A 360-degree hinge allows this Chromebook to convert from laptop to tablet mode. Education specific benefits include 2 HD cameras (Front 1MP, Rear 5MP), drop-resistant and spill-proof case with Corning® Gorilla® glass panel and serviceable battery that saves IT departments time and money. Teachers and students can work all day without a power cord.

- Hassle-free right out of the box—teachers and students can get up and running quickly. They get their own personalized apps, settings, and bookmarks when they log-in. It works with Chromecast*1 so teachers can stream media from their Chromebook to a TV for the whole class to see.
- The dual cameras support scientific inquiry activities along with giving students flexibility in how they capture images and video.
- Delivers fast, smooth performance—which means more time for teaching and learning. Students can load content-rich webpages quickly, watch videos with brilliant playback, run graphicintensive scientific simulations, and multitask effortlessly.

WARRANTY COVERAGE

The CTL 2-Year Standard Warranty is a repair and replacement service that covers factory defects but not accidental damage (spills, drops, surges, breakages) to mobile devices that are not covered under the standard limited warranty. The warranty also provides a two-way shipping on any repair issues covered under your 2- year warranty.

WHAT KIND OF DAMAGE IS NOT COVERED?

Some examples of non-intentional damage that are not covered are:

Cause of Failure	Resolution Description
Liquid spilled on or in unit	Repaired or unit replaced
Drops, falls, and other collisions	Repaired or unit replaced
Electrical surge	Repaired or unit replaced
Broken DC jack	Repaired or unit replaced

Damaged caused by intentional acts, fire, theft, neglect or loss are not covered under the 2 year Standard Warranty. Some examples of damage that would NOT be covered are:

Cause of Failure	Resolution Description
Damaged in a fire	Not covered – insurance coverage
Intentional damage (i.e. hammer marks)	Not covered – user responsible
Stolen unit	Not covered – insurance coverage
Normal wear/cosmetic damage that does not affect system performance	Not covered
Run over by any type of vehicle responsible	Not covered – user
