

Physicians United for a Healthier Hawai‘i

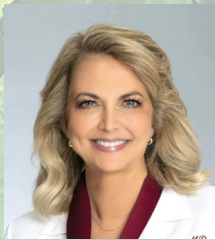

Since 1856, the Hawai‘i Medical Association and its component societies have represented Hawai‘i’s physicians as the singular voice of the medical profession. Recognizing the ever-changing landscape of medicine and the business of healthcare, HMA understands the unique challenges facing healthcare providers and furthers their interests and priorities through representation, advocacy and service.

Our members – physicians, residents and medical students from all specialties and practices – use their collective voice to influence public policy and help shape the present and future of healthcare in Hawai‘i.

Connection. Collegiality. Care. I'm an HMA Member as it allows me to connect with my community and colleagues on the issue that impact me and the care of my patients.

Get involved. It will make a difference.

Angela M. Pratt, MD

Thomas Noh, MD

I joined the Hawai‘i Medical Association because I believe physicians need a strong, independent voice in healthcare policy and advocacy. HMA unites physicians from every specialty to protect patient access to quality care, address challenges facing our profession, and ensure that the future of healthcare in Hawai‘i is shaped by those who care for patients every day. As a practicing neurosurgeon, I value being part of an organization that works to strengthen medicine for both physicians and the communities we serve.

HMA membership gives me a voice in the larger conversation about the future of our profession, and how we can continue to shape the larger healthcare landscape in Hawaii. I particularly appreciate the medium to connect and exchange ideas with my colleagues in different specialties - our trainings are different, but we are all one community!

Christina Marzo, MD

Membership Matters.

As individual physicians, we affect the health of the patients we care for. As a unified voice, we affect the health and welfare of our entire island community.

Join us and make a difference.

We Are HMA.

The Strength of Many. The Voice of One.

Use the QR code, visit hawaiimedicalassociation.org or complete the included form to start your membership journey! For more information and assistance, call 808.536.7702.

Yes! I'm Joining HMA!

Besides belonging to a large group of like-minded professionals, HMA membership also includes added benefits, like discounts for

education and fitness, use of the HMA offices, legislative representation, informational and social gatherings, discounted attorney fees, and so much more! New benefits are being added all the time; see our website for the latest member benefit listing.

Your HMA Dues

Annual full member dues are \$525.00. This includes dues for the Honolulu County Medical Society (HCMS), which covers HCMS activities on Oahu. Dues are discounted by \$125.00 for those who practice solely on neighbor islands. Dues can also be discounted by \$80.00 for those who join HMA as part of a group with 50+ members - current discounts are listed below. Only one additional discount per membership.

Although many HMA members also belong to the AMA, joining the AMA is not a requirement for HMA membership. When AMA membership is elected, payment is done through direct member payment to the AMA. Please let us know if you would like further guidance regarding AMA membership.

Use this box to calculate your dues; only one discount per membership. Return your completed application to: Hawai'i Medical Association, 1360 S. Beretania, #200, Honolulu, HI 96814

Hawai'i healthcare is at a crossroads with challenges on all sides. Physicians need to come together to discuss problems and possible solutions thoughtfully and with mutual respect, and to engage in advocacy efforts to ensure patient access and quality of care. We're doing ourselves, our patients, and future generations a disservice if we fail to engage.
