

Measles Update for Hawaii Clinicians

Tuesday, April 15, 2025 • 6:00 p.m.
Zoom Webinar • Register Today

The Hawaii Department of Health, Hawaii Medical Association, Hawaii Academy of Family Physicians, Hawaii Chapter of the American Academy of Pediatrics, and Queen's Health Systems Pediatric Clinical Program invite all healthcare providers to join an important panel discussion on measles - a critical update for clinicians across the state.

With recent global and national measles activity raising concern, this session will cover current trends, clinical recognition, public health protocols, and response planning for Hawai'i-based providers.

Measles in 2025: What Hawai'i Clinicians Need to Know Tuesday, April 15, 2025 • 6:00 PM Webinar on Zoom

Panelists:

Sarah Kemble, MD

State Epidemiologist, Hawai'i Department of Health

Jennifer Mbuthia, MD

Allergist & Immunologist

Nathan Tan, MD

Deputy State Epidemiologist, Hawai'i Department of Health

Facilitator:

Nadine Tenn Salle, MD

Clinical Chief of Pediatrics, Queen's Health Systems

The panel will share the latest data, guidance on case management, and strategies to enhance measles preparedness in clinical settings across the islands. A live Q&A session will follow.

Who Should Attend:

Physicians, nurses, pediatricians, emergency department staff, urgent care providers, community health workers, and all healthcare professionals involved in immunization and infectious disease response.
