

Aged Care Informatics Australia

ICT-Enabled Quality Aged Care

2012 Aged Care Informatics Conference will be an important occasion to celebrate our achievements, our people, our systems, and our world-class aged care informatics, research developments and implementations.

The conference is for the e-health and aged care informatics community to share and network with peers and be part of the movement to support health reform for Australia and the region.

Who should attend

Academic Researches
 Aged Care Professionals including Managers and Nurses
 IT Industry Professionals
 Administration including Government and Management
