Exhibit Admission Hours

There will be no set up on the day of the Expo. Following exhibitor move in on May 13, exhibitors will only be allowed on the exhibit floor at 12:00 PM on May 14, two hours prior to the opening of the Expo. No rolling carts or dolly’s will be allowed on the show floor the day of the show.

Removal of Exhibits

The exhibit hall will close promptly at 7:00 PM on Thursday, May 14. Exhibits are not to be dismantled or removed, in whole or in part, prior to the official closing at 7:00 PM. Doing so will result in not being invited back to participate in future BOMA Expos. Beginning at this time, empty exhibitor boxes/crates will be returned. All break down must be complete by 9:00 PM on May 14.

Storage Behind Booth Drapes

All cartons, crates, containers, packing materials, etc. stored for re-packing purposes must be removed from the exhibit area after they are unpacked. There will not be any on-site storage. No exceptions.

During the Expo

All main and cross aisles, corridors, exits, stair ways, etc. must be maintained at the required width at all times when the exhibit is open. All fire hose cabinets and emergency exits (including those inside an exhibit space) must be visible and accessible at all times. No obstructions (chairs, tables, displays, easels, etc.) will be allowed to protrude into the aisles.

Parking

Parking is included in your registration. Please make sure you print your parking pass for Thursday, May 14. Parking will be free for setup on May 13. Please use Holly Hall (Gate 3) to park all vehicles. If you have any parking concerns, please contact Ashleigh Yelovich at ayelovich@houstonboma.org.

Security

We will provide security from 3:00 PM on May 13 until the end of the BOMA Expo on May 14. It should be made clear, however, that although Houston BOMA is providing this service, we are not responsible for any loss of material by an exhibitor. We urge you to take every precaution to prevent loss or damage. Obtain proper insurance coverage for your goods from the time your shipment leaves your office, during move in, on show days, during move out, and until all materials have been returned to their point of origin.

Exhibitor Drawings

Exhibitors are encouraged to conduct prize drawings in their booth. Houston BOMA will announce your winners over the public address system every hour between the hours of 3:00 PM and 6:00 PM, if the prize is over $100 in value. If you would like your winners announced, you must fill out the form located in the BOMA booth.

Demonstrations

Demonstrations are defined as the part of the exhibit program involving the interaction of exhibit personnel and their audience through corporate presentations, product demonstrations, or sampling. Demonstration areas must be organized within the exhibitor’s space and may not interfere with any traffic aisle. Sampling or demonstration tables must be placed a minimum of 2 ft. from the aisle’s line. Should spectators or samplers interfere with the normal traffic flow in the aisle or overflow into neighboring exhibits, Expo management will request that the presentation or sampling be eliminated.

The aisles are the property of the entire show and each exhibitor has the responsibility to assure proper flow of traffic through the entire show. When large crowds gather to watch a demonstration or for sampling and interfere with the flow of traffic down aisles or create excessive crowds in neighboring booths, it is an infringement on the rights of other exhibitors. Aisles must not be obstructed at any time.

Exhibitors must police their own booths to be sure the noise levels from demonstrations or sound systems are kept to a minimum and do not interfere with others. Remember the use of sound systems or equipment producing sound is an exception to the rule, not a right. Expo management reserves the right to determine at what point sound constitutes interference with others and must be discontinued.

All product demonstrations involving any moving and potentially hazardous machines, displays or parts, must have hazard barriers to prevent accidental injury to spectators. Demonstrations must always be supervised by exhibitor personnel who can stop the demonstration in the event of an emergency and all demonstrations involving potentially hazardous by-products such as dust, fumes, sparks or flames, must be approved in writing by exposition management 60 days prior to the show.
