* * *

HoST - Journal of History of Science and Technology is an open access, on-line peer-reviewed international journal devoted to the History of Science and Technology, published in English by a group of Portuguese research institutions and De Gruyter/Sciendo. HoST encourages submissions of original historical research exploring the cultural, social and political dimensions of science, technology, and medicine (STM), both from a local and a global perspective.

Past thematic issues have dealt with topics as diverse as circulation, science communication, natural history, or the relation between science, technology and politics. Future issues might deal with both established and emerging areas of scholarship. The editors of HoST are looking for proposals for two thematic dossiers to be published in 2024 (HoST volume 18, issue 1-June, issue 2-December).

Each thematic dossier should be prepared by the guest editor(s) and include four research papers along with an introduction.
