Registered Attendees - Onsite Protocol Reminders

As product safety and health professionals we know the importance of following established safety protocol. To ensure your safety and the health of our attendees please partner with us by following these procedures during our conference.

**PROOF OF VACCINATION**

All attendees must provide proof of vaccination through our vaccination collection partner, Crowdpass prior to traveling to the Symposium.

Proof of vaccination is due no later than **February 9th** in order for our partner to verify. You will not be allowed into the conference space if you do not provide proof by this date (refunds will not be given).

**Masks**

You are required by ICPHSO and the Hotel to wear your mask over your nose and mouth throughout the entire hotel even in the meeting rooms. You can remove your mask to eat and drink but will be asked to replace your mask in between bites.

Session speakers should remove their masks only when they are speaking. When not speaking they must be worn.

Complimentary KN95 masks will be provided.

**Badges**

The ICPHSO Symposium badge **MUST** be visibly worn at all times inside our meeting space. This will show the staff you have been cleared to attend the Symposium.

If you do not have your badge you will be asked to leave.

**Comfortability**

At the registration desk, we will be providing red, green, and yellow stickers to show your comfort level with other attendees. Please apply one of these stickers to your badge.

**Red** - Greet from 6 feet

**Yellow** - Elbows Only

**Green** - High Fives Approved

**SOCIAL DISTANCING**

We have taken as many steps as we can to provide for social distancing, so please respect other attendees' space during meetings and networking breaks.

**FEELING ILL?**

If at any point you start to feel unwell, please stay in your room or leave the conference (if you are local) and contact the ICPHSO planning team by sending a text to 215.527.8833 or email info@icphso.org.
