Empowering every student on the planet to achieve more
“To steer the global response, UNESCO announced the creation of a UNESCO-COVID19 Emergency Task Force that will support national responses and share effective policy responses with a focus on the most vulnerable countries. A wider community of practice will be established to enhance knowledge sharing, peer learning and capacity building on distance and open learning. UNESCO aims to mobilize all actors involved, including the private sector. Partners such as Microsoft have already lent technical support to the Task Force.”
Education Thought Leaders Community

- 1200 + users in 72 hours

Scenarios

Teaching and Learning
- Absentee Students: Once per day/light touch
- Light Touch Teaching, 10 minutes of direction
- Mixed Learning, teacher interacting off/on
- Fully online learning

Faculty and staff coordination
- Crisis Center: Team site for leadership
- School/Site Communication/Daily updates
- Mark my self safe app

Professional development
- Remote Staff Development
- Professional Learning Communities

Community
- Virtual Town Halls
- Support Teams: Guess Access in Teams
- Questions and Answer BOT for website
- Recorded live meetings

Back Office
- Remote access into back office systems
- Virtual desktops for staff/student to use
Meeting customers where they are at.

**Fully engrained in current learning environment.**
Focus on empowering users with rich communication and collaboration, especially between staff using the Technologies they have.

**Ready to do more with Teams.**
Teams for classroom comms and collab, but LMS is still their primary classroom tool. Empowering users via Teams integrations for chats and meetings in LMS. Working with the other tools they have in place already.

**Love Teams, but can’t let go.**
Customer wants to convert to Teams but isn’t ready for full transition of LMS content. Focus on empowering users via light LMS integration into Teams and easy LMS content migration tools. Ensure users understand the value of rich classroom capabilities.

**All in on Teams.**
Teams is the one stop shop for both classroom and professional collaboration. No LMS integrations needed. Focus on further empowering users by enriching and informing users about core Teams EDU, Assignments and Gradebook capabilities.
Once you’re up and running with the basics - You have the foundation for more advanced future-ready learning
Support more inclusive classrooms
MICROSOFT LEARNING TOOLS

Improve reading
Increase reading speed and comprehension for learners regardless of their age or ability. Enable students with learning differences such as Dyslexia with text decoding solutions and help build confidence for emerging readers through features like Line Focus and Picture Dictionary.

Help students become independent learners
Today's educators are challenged to teach a wide range of abilities. Learning Tools helps them personalize learning for students' varying needs, allowing teachers time to focus on what they love, their students.

Encourage independent reading across devices in OneNote, OneNote Online, Word, Word Online, Office Lens, Outlook Desktop and Microsoft Edge

Support writing
With features like Dictation and Read Aloud, students can capture their writing and hear it read aloud providing them essential feedback to edit their work and clearly communicate their ideas to others.
