

IFSA **Exhibitor Points – Mergers & Acquisitions**

One benefit of IFSA membership is "points" earned for years of membership, sponsorship and exhibition. These points are used to determine the order in which companies select booths for the IFSA trade show each year, with those companies with the most points choosing first.

As these points are a benefit of continued IFSA membership, if a company does not pay dues for a full year, all accumulated points used in IFSA's booth selection process are forfeited.

Member companies that have merged with, been purchased by, or have purchased another member company are eligible to combine accumulated points based on the following criteria:

- Notification to IFSA Headquarters of the merger, buyout, etc. and the desire to combine points to the remaining company
- Payment to IFSA of \$1,000 per point
- Notification and payment activity to occur within twelve months of the date of the sale or merger

Established and Adopted - 2003
