

**Life Healing Center:**

*Philosophy: "Trauma often results in distorted relationships with oneself, ones' body and with others. We support our clients to identify how these current distortions are based in the past, while learning new here-and-now strategies and skills. We believe that recovery occurs in an atmosphere of compassion and awareness. We offer a diverse range of cutting-edge modalities along with well established treatment approaches which we believe is the best in integrative trauma treatment."*

**The New Orleans Institute at River Oaks Hospital**

*Treatment Program Philosophy: "we are dedicated to providing a safe, non-revictimizing, healthy environment to allow individuals to heal. Each individual is treated with respect and compassion in an intensive, state-of-the-art program that effectively combines psychotherapy and pharmacology within a therapeutic community."*
