## **Policy XI Conflict of Interest**

### **CONFLICT OF INTEREST STATEMENT**

Conflict of interest is defined as any situation in which an individual member of the ICA Governing Council is in a position to exploit this official capacity for personal gain. One who has a conflict of interest is expected to abstain from decisions where such a conflict exists. The imperative for abstention varies depending upon circumstances, either as common sense ethics, codified ethics, or statute dictates. In some circumstances, this can even include abstaining from discussion of the issue involved.

A conflict of interest exists even if no unethical or improper act results from it. A conflict of interest can create an appearance of impropriety that can undermine confidence in the Association.

When necessary, a neutral third party can be brought in to help make an impartial judgment that will mitigate the conflict of interest which remains a conflict nonetheless.
