Article I—Purpose
Technical Divisions shall be established to provide focus on the Institute’s recognized technical strengths. The Technical Divisions are focal points of the Institute for information and activities related to their specialties. They are responsible for making recommendations in all areas related to their specialties, for encouraging publication of articles on their topical interests in the *Journal of the Institute of Nuclear Materials Management* (JNMM), and may organize workshop meeting or seminars as they deem appropriate. Technical Divisions can be established in the following manner:

A metric for consideration is the involvement by the Institute membership in the specific technical strength in the Technical Program of Annual Meeting of the Institute.
