

## Glenn Arnold

Director of Programs Management  
Infrastructure Management Group  
EMC  
*2009 Special Recognition Honoree*

Glenn Arnold earned a Special Recognition at the 2009 Black Engineer of the Year Awards (BEYA) for his "unusual combination of elite technical skills, program management skills, corporate leadership and community service." Back then he was leader of a panel that evaluated the technical capabilities of EMC's investment and acquisition targets. He was co-founder of EMC's Black Affinity Group and after hurricane Katrina, spent a week volunteering with his then 18-year old son in New Orleans. Currently, he manages staff operations and strategic initiatives including product and process investigations, and story boarding major group policy activities and work stream. Prior, he served as director of ASD Program management where he facilitated the Product Line leadership Team for Smarts as well as the Smarts Suite engineering team. Arnold earned a degree in physics from Morehouse College and a second bachelor's degree in mechanical engineering from Georgia Tech. He also earned an M.B.A. from the Northwestern University Kellogg School of Business and a master's in mechanical engineering from Stanford University. Prior to joining EMC, he spent 20 years at Lucent Technologies/AT&T. At Lucent, he worked in multiple business areas, including wireless infrastructure, voice switching and data networking.
