Nominate an exceptional scientist for a 2023 ISAM Award!
The ISAM Awards Committee is very pleased to request nominations for the following four awards that will be presented at the 24th International ISAM Congress in Saarbrücken, Germany (August 26th – August 30th, 2023). These awards recognize excellence in the field of aerosols in medicine. We are seeking nominations for the Career Achievement Award, the Young Investigator Award, the Ted Martonen Student Research Award, and the Thomas T. Mercer Award (jointly sponsored by ISAM and AAAR).

Do you have an exceptional full-time student who has demonstrated outstanding independent research in the field of aerosols? Nominate them for the Ted Martonen Student Research Award! To nominate, the research supervisor should provide a single letter of nomination documenting the student’s independent contributions to aerosol research. Student nominees should also indicate “Student Award” during the abstract submission (https://app.oxfordabstracts.com/stages/5054/submitter). The deadline is 15 March 2023 (the same as the general abstract submission deadline). The letter of nomination should be sent to Cathy Fromen via email to cfromen@udel.edu by the deadline with the subject line to read ‘2023 ISAM student award nomination’.

Do you have an inspiring colleague who is outstanding in aerosol science? Nominate them for the Career Achievement and Young Investigator Awards! Each nominator must send a letter of nomination, at least two supporting letters, and a current curriculum vitae for the nominee. Previous nominations that were not awarded will require re-nomination. The nominee cannot be a member of any of the awards committees. The deadline for nominations is 31 March 2023. All materials should be sent in a single package to Cathy Fromen via email to cfromen@udel.edu by the deadline with the subject line to read ‘2023 ISAM award nomination’.

Want to recognize a seminal researcher in the field of medicinal aerosols and inhalable materials? Nominate them for the Thomas T. Mercer Award (jointly sponsored by ISAM and AAAR). This year’s recipient will be notified in advance of the meeting to coordinate recognition at the ISAM Congress in Saarbrücken. Any member of ISAM or AAAR may make nominations. The nomination package should comprise of at least two but no more than three supporting letters, along with the nominee's curriculum vitae. At least one letter must be submitted by a current AAAR or ISAM member. Nominations for this award must be received by 31 March 2023.

Each award consists of a certificate and a plaque. All but the Career Achievement Award also include a cash prize. Nominations are sought from the membership-at-large. Further information on the conditions and prior winners of these awards can be found at https://isam.org/page/Awards
We encourage you to put forward the name of a worthy researcher or scientist. Don’t wait – get started on your nominations today!

Your ISAM Awards Committee,

Catherine Fromen
