SPINAL CORD INJURY DAY
5 September

Access to SCI services; a life less complicated.
With dedicated care, support, and access to specialised services, those living with spinal cord injuries can navigate their daily lives with greater ease and independence.

Use your camera to access resources aimed at advocating for improved accessibility, targeted therapies and community support that can transform challenges into opportunities for growth and empowerment.

For more information on the prevention of spinal cord injuries and spinal cord rehabilitation, contact:
