

Kappa Alpha Psi Foundation Announces New Executive Director

The Kappa Alpha Psi Foundation recently selected Anthony G. Stepney as its new Executive Director. Brother Stepney is a Life Member of Kappa Alpha Psi Fraternity, Inc. and past Vice Polemarch of the award-winning Winter Park (FL) Alumni Chapter.

Brother Stepney will provide leadership to the organization and will oversee a variety of functions to continue the efficient administration and operation of the 38-year organization. In addition, he will serve as the chief development officer and provide support to the Foundation's Board of Directors. Prior to his appointment, Brother Stepney served with the Foundation on its signature biennial events, the Building the Dream Klassic and, most recently, the Celebration of Achievement Luncheon, held in Philadelphia in July.

Brother Stepney brings to the Foundation more than 25 years of fundraising, development and administrative leadership experience. In his new role, he will lead the development and implementation of the Foundation's Strategic Plan, and will develop and manage programs and services that the Foundation provides to communities across the nation.

Recognized nationally for his thought leadership on golf-related and developmental business matters, Brother Stepney is distinguished professionally – having been selected to the inaugural PGA LEAD Emerging Leaders program and various other efforts. Brother Stepney recently earned the prestigious designation of PGA Master Professional, the highest educational honor and achievement among PGA of America Membership. As a Master Professional, he represents close to 1% of members of the association. Brother Stepney is the first African American to complete the designation in Player Development and only the second African American overall.

“Brother Anthony Stepney's strengths and expertise in areas such as strategic planning and development, program management, diversity and inclusion, youth development and education makes him a great fit for the Kappa Foundation's leadership role,” said Michael J. Dubose, Foundation President. “Brother Stepney will continue to take the organization to greater heights as we continue under the theme ‘A New Way Forward.’”

Brother Stepney is extremely involved in the Central Florida community where he resides, supporting several community organizations. He previously served as a director of the Winter Park Achievement Foundation, Inc.

Brother Stepney and his Silhouette, Michelle Moore Stepney – a marketing executive with The Walt Disney Company – live in Orlando. They are the proud parents of Jasmin L. Stepney, an engineer, who recently graduated from Spelman College in Atlanta, GA.
