# Professional Certification Program

---

(Revised November 2018)

---

## Enhanced Professionalism

Recognizing the importance of attaining professionalism for school business officials, not only with regard to acquired knowledge and experience, but also in terms of the recognition and respect of peers and other professionals, LASBO's Board of Directors established its Professional Certification Program in 1992. In 2010, certification was made available for Louisiana Charter School Business Professionals. In 2014, the Louisiana Charter School Business Administrator designation was added. Effective January 1, 2016 the certification requirements for all designations were revised.

The Program offers both acknowledgment and recognition for professionals at all levels of school business management. Certification is a way of recognizing those individuals with the background, training, and on-the-job experience to meet recognized standards of professional competence.

## Certification Choices

Certification is available at five levels:

- **Certified Louisiana School Business Administrator (CLSBA)**
- **Certified Louisiana Charter School Business Administrator (CLCSBA)**
- **Certified Louisiana School Business Official (CLSBO)**
- **Certified Louisiana School Business Specialist (CLSBS)**
- **Certified Louisiana Charter School Business Professional (CLCSBP)**

All levels are equally important. Though the requirements differ for each, no designation is "better" than another. All require commitment to continuing education and to enhancing skills and knowledge to meet the demands of ever-changing schools and their administration in the 21st century.

---

---

## Objectives of Certification

- To raise the professional standards of those engaged in school business administration
- To improve the practice of school business administration by encouraging officials to participate in a program of continuing professional development
- To identify individuals with thorough knowledge of the principles and practices of school business administration, related disciplines and the laws governing and affecting schools
- To award special recognition to school business officials who have shown a high level of competence and ethical fitness in their profession

## Benefits of Certification

LASBO's Professional Certification Program is a mark of distinction, reflecting the highest honor of professional achievement in school business management. Certification benefits school business officials in several ways:

- Increased credibility in the education community
- Use of the certification initials after one's name on business stationery, etc.
- Enhanced ability to compete in the job market

---

## Eligibility

All applicants for the CLSBA, CLCSBA, CLSBO, CLSBS, and CLCSBP must meet the following requirements:

- *Be a member of LASBO* at the time they apply for certification
- Complete the Official Transmittal Form and the appropriate *Application for the Status of . . .* form
- Provide documentation of having completed all *education requirements* for the designation involved
- Include on the application the school *superintendent's or administrator's certification* (2<sup>nd</sup> page of transmittal form) and that: (1) the applicant is a school business administrator, business official, specialist, or charter school business professional as a district level employee; the applicant's appropriate position; (2) the areas of responsibility are accurately checked; and (3) the other information on the application is accurate; and (4) form is notarized
- *Submit a letter of recommendation* from the superintendent of schools or immediate supervisor recommending the applicant for certification and addressing the person's integrity, character, ethical behavior, administrative ability, efficiency, and competence
- Meet *specific requirements* relating to the particular designation sought
- Remit the *application fee* (see *Official Transmittal Form*)

---

## **Application Procedure**

Persons seeking certification must submit their application form to LASBO's Certification Committee within the deadlines established by the Committee. The Committee, which is appointed by the Board, administers the program and safeguards its credibility. Members serve overlapping 3-year terms.

Applicants may apply for the appropriate designation for which they qualify. Certified appointees may hold only one certificate designation at a time.

Using the policies, rules, and regulations adopted by the Board, the Committee reviews each application and the accompanying documentation and recommends either approval or denial to the Board.

The Committee may request additional information, as necessary, before making a recommendation. Failure to provide information requested by the Committee is grounds for denial.

## **Approval Process**

All applications recommended for approval by the Certification Committee are submitted to the LASBO Board of Directors at their next regular meeting. The Board considers each for final approval and issues the appropriate certificates, to be awarded at LASBO's Spring Conference.

---

## **Denial & Appeal Process**

When an application is not recommended for approval by the Committee and is therefore denied by the Board, the applicant is notified in writing. The correspondence sets forth the reasons for denial and explains the applicant's right to appeal the decision of the Committee.

An applicant may appeal by sending written notice to the Board of Directors. The notice must be received within 30 days of the date of denial notice. All documents supporting the appeal must be received by the Board within 60 days of the original notice of denial.

All appeals are reviewed by the Board, and its decision is final. No further appeals will be accepted.

## **Revocation**

A professional certificate may be revoked by the Board for the following reasons: (1) falsification or misrepresentation of information in the application process; (2) violation of the LASBO Code of Ethics or LASBO Standards of Conduct; (3) failure to maintain an active or life membership in LASBO; or (4) failure to complete the 60 hours of continuing credit at the end of the 3-year period.

## **Change in Designation**

A person holding a CLSBS certification may apply for a CLSBO certificate after meeting the appropriate responsibility and tenure requirements. A CLSBO may apply for a CSLBA certificate after meeting the appropriate responsibility, education, and tenure requirements. A CLCSBP may apply for a CLCSBA certificate after meeting the appropriate responsibility, education, and tenure requirements.

---

## Reinstatement to Active Status

CLSBA's, CLCSBA's, CLSBO's, CLSBS's, and CLCSBP's in good standing when they retire or resign may reinstate their certificate if they become re-employed. Persons requesting reinstatement would apply in writing to the Certification Committee within 6 months of re-employment. The Committee will forward the request, their recommendations and conditions for reinstatement to the LASBO Board of Directors for approval.

## Certification Renewal

All certificates for CLSBA, CLCSBA, CLSBO, CLSBS and CLCSBP are valid for 3 years from the date granted or prorated to keep 3-year terms consistent with existing certificate holders. These certificates may be renewed for another 3-year period after the incumbent completes these renewal requirements:

- Maintain an active membership in LASBO during all years of certification
- Complete a minimum of 20 hours of continuing credit each year (or 60 hours at the end of the 3-year period beginning on January 1 of the year receiving certification or renewal) and have documentation of these credits on file with the Certification Committee

The purpose of the continuing credit requirement is to ensure that a certificate holder remains knowledgeable and up-to-date in his or her field of administration.

Certificate holders may be able to earn the required hours by attending both the LASBO annual Spring Conference and Fall Workshop, and the regional LASBO meetings. In addition, the Board of Directors works with other organizations to promote and sponsor appropriate training opportunities.

---

## Functional Areas & Areas of Specialization

Candidates for CLSBA, CLCSBA, and CLSBO must manage a certain number of functional areas or areas of specialization, depending on the designation. \*

Following is a list of the **major functional areas** (designated by roman numerals) and **areas of specialization** (designated by capital letter) within each functional area.

The requirements are as follows:

- **CLSBA** and **CLCSBA** candidates must manage 3 or more of the major functional areas and 12 of the areas of specialization.
- **CLSBO** candidates must manage at least 1 major functional area and/or at least six areas of specialization among the categories.
- **CLSBS** candidates usually perform a specific area of specialization with less than six areas of specialization.
- **CLCSBP** candidates may perform any of the major functional areas or areas of specialization in charter schools

\* Based on the school systems' organizational chart, applicant's level of supervision and responsibilities, and number of major and sub-categories checked, change of designation for CLSBO and CLSBS may be reconsidered along with the Chief Financial Officer's written recommendation.

### Meeting Education Requirements

The Application for the Status of CLSBA, CLCSBA, CLSBO, CLSBS, or CLCSBP sets forth the education requirements for these designations, respectively. This form is designed to report the 80 hours or 60 hours, respectively, from workshops completed in fulfillment of those requirements. This form *must accompany the Official Transmittal Form and the appropriate Application for the Status of... form, and be submitted together to the Certification Committee.*

Candidates for the CLSBA or CLCSBA designation must complete a total of 80 hours from workshops/training (50% must be LASBO courses).

Candidates for the CLSBO or CLSBS or CLCSBP designation must complete a total of 60 hours from workshops/training (50% must be LASBO courses).

### Workshop Credit

All workshops reported must have been completed within the past seven years and be job-related.

Workshops offered by other professional organizations such as GFOA and AGA as part of a multi-day conference and job related would meet LASBO's education requirements for certification. Please note that NO VENDOR training is accepted for certification.

The LASBO Certification Committee reserves the right to approve or disallow credit.

### Academic Credit

For persons currently attending academic classes, academic credit may be substituted for workshop credit, as follows:

- A job related academic course may qualify for 15 hours.
- Not more than 50% of the workshop hours required for a particular designation may be substituted with academic class credit. Remaining 50% must be LASBO courses.
- The academic class used for substitution must be job-related and limited to one per year.
- An applicant applying for substitution of credit must have already completed the employment requirements for the designation he/she is seeking.
- Once an applicant attends an academic class for credit, the remaining education requirement must be completed within a 3 year period.

### Maintaining Certification

The continuing education of school business officials is essential to enable schools to cope with rapidly changing information and technology. To ensure the highest level of professionalism at all levels of school business management, the Professional Certification Program of the Louisiana Association of School Business Officials requires recertification every 3 years.

Mandating certification renewal ensures that registrants maintain their expertise in the field by participating in continuing education and professional development activities. Maintaining the CLSBA, CLCSBA, CLSBO, CLSBS, or CLCSBP designation requires the participant to make a concerted effort to continually hone their professional skills.

To maintain certification, a school business official must:

- Maintain an active membership in LASBO during all years of certification
- Complete and have on file with LASBO's Certification Committee a record of having completed the 60 hours of continuing credits over the 3 year period or 20 hours each year.

### Certification Renewal

An individual's 3-year certification period begins January 1 of the year in which he or she receives the certificate attesting to certification. For example, an individual may apply for the status of CLSBA at the end of December. His or her application would be reviewed by the Certification Committee in January and the forwarded to the Board of Directors for approval. If approved, the applicant would receive his or her certificate of certification at LASBO's Spring Conference. Though the certificate is not awarded until spring, the person's anniversary date would be January 1 of that year. After the first certification renewal, the individual must continue to renew at 3 year intervals, each beginning on January 1. Depending on the 3-year period, new certificate holders may have their years prorated to keep everyone on the same 3 year reporting cycle.

In late November or early December each year, certified officials will receive a letter and a renewal reporting form from LASBO, requesting that they submit their hours of continuing education credit for that year to LASBO's Certification Committee for review at its January meeting.

### Special Condition & Limitations

- A certified official who teaches a course can accrue 2 hours of credit for every hour taught.
- A job related academic course may qualify for 15 hours and limited to one course per year. Check with the Certification Committee if questions.
- To qualify for continuing education credit, a regional meeting must last a minimum of 2 hours and have a planned agenda and speaker.
- The maximum allowable for an ASBO national conference is 24 hours.
- The maximum allowable for an LSBA convention is 16 hours.
- The maximum allowable for an NSBA convention is 16 hours.

Vendor training is acceptable for certification renewal. [For original certification, however, prior approval is required by the Certification Committee. Approval will depend on the applicant's job title and the availability of topics offered.]

*NOTE: The committee may waive any of the provisions of this Professional Certification Program when the best interest of LASBO will be served.*

### **Failure To Meet Education Credits**

LASBO members who do not meet the required 60 hours of continuing education credits by the end of the 3-year certification period (ending December 31) will have their certificate revoked by the LASBO Board of Directors. This means they will have to go through the certification process again, from scratch, which includes meeting the 80 and/or 60 hours of education requirements. Any workshop attended prior to the revocation cannot be used.

### **Extension To Meet Education Credits**

Individuals who do not meet the required 60 hours of continuing education credit for recertification may apply for, and be granted, an extension by the Certification Committee to complete the required hours. A letter/form requesting the extension must be submitted by early January following the December 31 deadline, along with an explanation of the hardship and any other supporting documentation. The Certification Committee will respond to the request and, if approved, will outline the conditions, fees, and deadlines of the extension.
