

2024 Project Excellence Nominee

Long Pont Causeway Bridge Replacement

Nominated by Sierra Construction

The Long Point Causeway Bridge Replacement project, managed by Sierra Construction Group, involved the intricate task of replacing an aging timber bridge with a new multi-span concrete bridge. Located on Highway 59 over Big Creek's outlet into the Long Point Inner Bay, this project commenced in April 2021 and was completed in December 2022.

Bridge Replacement. This project not only improved infrastructure but also set a precedent for environmental protection in construction within sensitive ecological areas.
