

2024 Project Excellence Nominee

Nestle Project Pearl

Nominated by Magil Construction Canada

The Nestle Project Pearl, undertaken by Magil Construction Canada Inc., is a significant Design-Build project aimed at expanding the Nestle factory located at 980 Wilton Grove Road, London, ON. The project involves constructing a new 19,000 square foot addition to the southeast corner of the existing facility. This expansion was necessary to incorporate two new production lines, thereby enhancing the factory's production capacity.
