1. Is Your City Prepared for a Disaster?

Wildfires. Tornadoes. Chemical plant explosions. Emergency planners often say that the question is not IF a crisis will occur in your city - it is a question of WHEN a crisis will occur. Our May 5 and May 12 Municipal Training Institute (MTI) classes will provide the information necessary for a city to review their preparations for executing pre-disaster and response/recovery operations in a natural disaster. 2. Census 2020 Webinar Offered

The League and U.S. Census Regional Office staff in Denver are teaming up to present an informative webinar for Kansas cities. This webinar will discuss new design changes for 2020 Census, field operations in Kansas, geographic programs, the community and partnership engagement program and how cities can prepare for this important national count of the American people.
