

## Louisiana State Medical Society Alliance

### Physicians' Spouses & Medical Student Spouses LSMS Physicians & Medical Students

**Please Join Us!**  
**Together We Share a Vision**  
**To Support Physicians' Families**  
**To Improve the Health of Our Communities**

The Louisiana Alliances are a parish, state, and regional non-profit volunteer organization of physicians' spouses, physicians, medical students, and medical students' spouses, working in Alliance with the Louisiana State Medical Society.

We are working together for better health care for the citizens of our communities. We address health issues such as violence prevention and solutions, child safety, and health needs of the low-income families.

We support health education through community health fairs; by the distribution of information on concerns of healthy lifestyles, cancer awareness, heart disease, children's health; and by offering scholarships to health career students.

We are affiliated with the American Medical Association Alliance and receive the benefits of nationwide family of medicine support, publications, programs, national networking, and leadership training for our members.

**We need you and your talents, ideas, and support.**
