BUPRENORPHINE BOOT CAMP
GETTING YOUR CLINIC OFF THE GROUND

December 5-6, 2019
at the Sheraton Bloomington Hotel

Learn more & register your team: mafp.org/BootCamp2019

Kickstart your clinic’s efforts to care for patients with Opioid Use Disorder (OUD).

- Assistance for physicians, nurse practitioners, and physician assistants who wish to apply for a buprenorphine waiver
- Immersive team mentoring
- CME credits
- Clinic workflow and operational discussions
Sign up your team: two prescribers, a registered nurse, clinic manager, plus any critical members of your clinic's care team. Doctors and APPs seeking waivers are welcome!

Educational Objectives

- Screen and identify patients with OUD and define evidence-based treatments.
- Discuss the pharmacology of opioids as it relates to treatment of OUD patients.
- Describe the fundamentals of office-based opioid treatment including the treatment of the co-morbid patient.
- Explain the process of buprenorphine induction as well as stabilization and maintenance.
- Discuss all FDA approved antagonist and agonist medications to treat OUD.
- Discuss basic office protocols including medical record documentation and confidentiality.
- Utilize evidence-based resources to ensure providers have the confidence to prescribe buprenorphine for patients with OUD.
- Apply for buprenorphine waiver to begin treating patients with OUD.

Funding for this initiative was made possible (in part) by grant no. 1H79TI081968 from SAMHSA. The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services nor does mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.
