Help MAPPS Ascend to Greater Heights!

The Ascent Membership Program is a method for member firms to help increase the impact of MAPPS. The new Ascent Program replaces the old Sustaining Member Program with better benefits, purpose and transparency.

What are the 2019 Contributions Used For?

The MAPPS Board will be highly transparent and report, at the Annual Meeting, where Ascent contributions are being leveraged. Some of these allocations include:
- Operating costs
- Growth and expansion
- Future Initiatives

Why Contribute?

With the addition of over 20 new members and increased member engagement, our Association is lively, relevant and growing. Moreover, the new MAPPS is having greater success on Capitol Hill as evident by MAPPS being considered a major collaborator and contributor to the passage of The Geospatial Data Act (GDA) as part of the FAA Reauthorization Act (H.R. 302).

How to Contribute?

Ascent Membership contributions can be made with a firm’s annual dues renewal. The recommended minimum contribution is based on the firm’s membership category.

Benefits that Enhance Your Marketing Efforts!

Benefits will leverage the new MAPPS media outlets providing exposure of your firm to a wide array of potential partners and clients. A multitude of qualified and targeted audiences will see your brand in a variety of forms which are highlighted in the MAPPS media kit.
