# Overview of Data Privacy & Practices

## Data Privacy regulations strive to balance:

- ▶ The public's right to know about their government;
- ▶ The government's need to have/use data to do its work;
- ▶ Individual privacy rights.

# Overview of Data Privacy & Practices

- ▶ Data Privacy is the relationship between technology and the legal right to, or public expectation of, privacy in the collection and sharing of data.

## **Minnesota Government Data Practices Act**

The Minnesota Government Data Practices Act (a/k/a Ch. 13) was enacted in 1979 to assist with the classification and regulation of government data.

# Minnesota Government Data Practices Act

## Chapter 13:

- ▶ Defines what is government data.
- ▶ Presumes government data are public.
- ▶ Classifies certain data as not public.
- ▶ Provides rights for the public and data subjects.
- ▶ Requires that data on individuals are accurate, complete, current, and secure.
- ▶ Includes penalties, both civil and criminal, for breaches.

## **Minnesota Government Data Practices Act**

“Government data” means all data collected, created, received, maintained, or disseminated by any government entity regardless of its physical form, storage media, or conditions of use.

Ch. 13.02, subd. 7

# **Minnesota Government Data Practices Act**

“Government data” is government data,  
no matter where it is stored.

## Minnesota Government Data Practices Act

There are two types of data under Ch. 13:

- ▶ **Data on individuals**: an individual can be identified as the subject of the data (13.02, subd. 5)
- ▶ **Data NOT on individuals**: data that are not about individuals, e.g., data on businesses, organizations, or intangible objects (13.02, subd. 4)

# Minnesota Government Data Practices Act

What is **PUBLIC** data?

- ▶ “Public data” are anything not classified by state statute, federal law, or temporary classification as either private or confidential. Accessible to anyone for any reason, the county’s “responsible authority” is required to establish procedures to facilitate access to public data.

# Minnesota Government Data Practices Act

What is **PRIVATE** data?

- ▶ Private data is data on individuals that is expressly classified as private by state statute, federal law, or temporary classification. Private data is not accessible to the public, but may be accessed by:
  - The subject of the data.
  - Individuals within the county (county officials or employees) whose work assignments reasonably require access.
  - Outside entities or agencies that are authorized by state or federal law to access that specific data.
  - Entities or individuals given access by express written direction of the data subject.

# Minnesota Government Data Practices Act

What is **CONFIDENTIAL** data?

Confidential data is data on individuals that is expressly classified as confidential by state statute, federal law, or temporary classification.

▶ Access is limited to:

- Individuals within the county whose work assignments reasonably require access.
- Outside entities and agencies authorized by state or federal law to access that specific data.

# Minnesota Government Data Practices Act

What is **NONPUBLIC** data?

- ▶ Nonpublic data is **ONLY** accessible to the subject of the data (if there is one, but not accessible to the public).

# Minnesota Government Data Practices Act

What is **PROTECTED NONPUBLIC** data?

- ▶ Protected nonpublic data is not accessible by EITHER the subject of the data or the public.

## **Welfare Data**

**Minn. Stat. 13.46**

- ▶ Substantial portions of the data collected, created, received, maintained and disseminated in conjunction with a Child Protection matter, will be “Welfare Data”

# Welfare Data

Minn. Stat. 13.46

- ▶ Data on individuals” collected, maintained, used, or disseminated by the welfare system are private data on individuals and shall not be disclosed except pursuant to informed consent, a court order or for a variety of other reasons. [Statute lists 33 exceptions that allow disclosure of data], including, but not limited to:
  - ▶ To health care provider to coordinate services;
  - ▶ To an investigator as to criminal or civil or administrative proceeding related to the administration of the program;
  - ▶ In case of emergency to protect health or safety.

# Welfare Data

Minn. Stat. 13.46

- ▶ Welfare System is broadly defined and includes:
  - ▶ The Department of Human Services
  - ▶ Local social services agencies
  - ▶ County public health agencies
  - ▶ The public authority responsible for child support enforcement
  - ▶ Persons, agencies, institutions, organizations and other entities under contract to any of the above agencies to the extent specified in the contract

Minn. Stat. 13.46, Subd. 1

# **Reporting of Maltreatment of Minors**

**MN Stat. 626.556**

**The public policy of the Reporting of Maltreatment of Minor's Act is to protect children whose health or welfare may be jeopardized through physical abuse, neglect or neglect**

# Reporting of Maltreatment of Minors

- The agency and law enforcement must collaborate to comply with mandated duties:
  - Cross Report Minn. Stat. 626.556, Subd. 10(a)
  - Collaborate to coordinate the planning and execution of their respective investigation and assessments Minn. Stat. 626.556, Subd. 10(b)(5)

# Reporting of Maltreatment of Minors

- Information must be shared between the agency and law enforcement:

- Each must immediately report allegations of child maltreatment to the other entity.

Minn. Stat. 626.556, Subd. 10 (a)

- If report involves possible criminal conduct, law enforcement and agency shall coordinate the planning an execution of respective investigations

Minn. Stat. 626.556, Subd. 10 (b) (5)

# Reporting of Maltreatment of Minors

- ▶ Cross Report to Law Enforcement and vice versa
  - ▶ Failure of agency to report to LE may result in disciplinary action
  - ▶ Failure of law enforcement to report to agency may result in disciplinary action

# Reporting of Maltreatment of Minors

- ▶ Identity of Reporters – Confidential
  - ▶ Protect the rights of the person making the report
  - ▶ Intentional disclosure of reporters identity prior to completion of investigation is a misdemeanor

# Reporting of Maltreatment of Minors Act

- ▶ Both law enforcement and agency shall prepare a separate report of the results of the investigation or assessment.

Minn. Stat. 626.556, Subd. 10

- ▶ Agency shall provide relevant private data to the mandated reporter.

Minn. Stat. 626.556, Subd. 10j (a)

- ▶ Agency may provide data to other mandated reporters with ongoing responsibility for the health, education or welfare of the child. *Id.*

# HIPAA

## 45 CFR §160 - 164

- ▶ The Health Insurance Portability and Accountability Act (HIPAA) protects the privacy of individually identified health information (PHI) that is held by covered entities and their business associates (BA).

# HIPAA

- ▶ HIPAA has both a Privacy and a Security function and each covered entity is required to have designated official for both functions.

# HIPAA

- ▶ Who is a COVERED ENTITY under HIPAA?
  - ▶ County departments such as public health, social services, jail/corrections and administration/human resources.
  - ▶ The County may be considered a hybrid for HIPAA purposes as a result of its organizational structure – having both covered and not-covered operations.

# HIPAA

HIPAA applies to the county's business associates that have access to PHI in carrying out any covered functions on our behalf.

# HIPAA

Covered entities are required to provide a written privacy notice whenever collecting PHI that provides:

- ▶ Permitted uses and disclosures of PHI;
- ▶ List of the individual's rights;
- ▶ List of the County's duties to protect PHI;
- ▶ Notice of use for treatment reminders and to offer alternative services; and
- ▶ Contact information for complaints.

# HIPAA

Covered Entities may ONLY use or disseminate PHI when authorized by the HIPAA Privacy Rule OR the individual gives consent in writing.

# HIPAA

- ▶ A KEY ASPECT of the Privacy Rule is the principle of “minimum necessary” use and disclosure.

A covered entity must make reasonable efforts to use, disclose, and request only the minimum amount of protected health information needed to accomplish the intended purpose of the use, disclosure, or request.

**HIPAA**

**What happens when an IMPERMISSIBLE  
use or disclosure of PHI occurs?**

## **RESPECT FOR RIGHTS OF THIRD PERSONS -**

**A lawyer who receives a document or electronically stored information relating to the representation of the lawyer's client and knows or reasonably should know that the document or electronically stored information was inadvertently sent shall promptly notify the sender.**

**MN Rules of Professional Conduct, Rule 4.4(b)**

# HIPAA

Be familiar with the Minnesota Health Records Act (Minn. Stat. § 144.291) which:

- ▶ Protects privacy of health records by provider or received from a provider.
- ▶ Includes a few NARROW exceptions to the general consent requirement; and
- ▶ Allows for disclosure of records by mental health provider to law enforcement in LIMITED circumstances.

## Chemical Dependency Data

- ▶ Federal regulations 42 CFR Part 2 (“Part 2”) provide special protections to ensure privacy related to Substance Use Disorders and treatment data.
- ▶ Enacted to encourage individuals with SUDs to enter and remain in treatment

# Chemical Dependency Data

Part 2 generally prohibits treatment programs and certain third-party recipients from disclosing patient identities or records without patient consent, except in the following circumstances:

- ▶ Medical emergencies, 42 CFR § 2.51
- ▶ Child abuse or neglect reports required by state law, 42 CFR § 2.12(c)(6)
- ▶ Reporting a patient's crime on program premises or against program personnel, 42 CFR § 2.12(c)(5)
- ▶ Qualified audit or evaluation of the program, 42 CFR § 2.53
- ▶ Research requests, 42 CFR § 2.52
- ▶ Qualified Service Organization Agreements, 42 CFR § 2.12(c)(4)
- ▶ Court orders authorizing disclosure and use of the patient records, 42 CFR §§ 2.61-2.67

## Chemical Dependency Data

Each disclosure made with the patient's written consent must be accompanied by one of the following written statements:

(1) This information has been disclosed to you from records protected by federal confidentiality rules (42 CFR part 2). The federal rules prohibit you from making any further disclosure of information in this record that identifies a patient as having or having had a substance use disorder either directly, by reference to publicly available information, or through verification of such identification by another person unless further disclosure is expressly permitted by the written consent of the individual whose information is being disclosed or as otherwise permitted by 42 CFR part 2. A general authorization for the release of medical or other information is NOT sufficient for this purpose (see §2.31). The federal rules restrict any use of the information to investigate or prosecute with regard to a crime any patient with a substance use disorder, except as provided at §§2.12(c)(5) and 2.65; or

(2) 42 CFR part 2 prohibits unauthorized disclosure of these records.

# Chemical Dependency Data

Part 2 recognizes the sensitivity of SUD patient records by requiring a special court order before turning over patient records in response to a subpoena, search warrant, or law enforcement request. 42 USC § 290dd-2; 42 CFR §§ 2.61-2.67.

Sample forms are available from the Legal Action Center to help programs and courts comply with the Part 2-specific court order requirements, including:

- ▶ Sample letter in response to a subpoena – civil cases
- ▶ Sample letter in response to a subpoena – criminal cases
- ▶ Sample court order
- ▶ Sample standing court order

<https://lac.org/addiction-confidentiality-42-cfr-part-2-important/>

# Chemical Dependency Data

**What is the difference between Part 2 and HIPAA?**

- ▶ Both Part 2 and HIPAA protect patient privacy by regulating the way that patient information can be shared and disclosed. HIPAA applies to many types of patient information, not just SUD information, and generally is less protective of patient privacy than Part 2.

# Chemical Dependency Data

## What is the difference between Part 2 and HIPAA?

- ▶ One of the most important differences between Part 2 and HIPAA is the privacy protections for patient records in criminal and civil legal proceedings. Part 2 requires a specific court order for the disclosure of Part 2-protected information in response to a subpoena, search warrant, or law enforcement request.

# Chemical Dependency Data

What is the difference between Part 2 and HIPAA?

- ▶ HIPAA also permits disclosures *without patient consent* for “treatment, payment, or healthcare operations.” Part 2 requires patient consent authorizing disclosure of SUD records for treatment, payment, or healthcare operations. 42 CFR § 2.33.

## Multidisciplinary Team

- ▶ A county shall establish a Multidisciplinary Team;
- ▶ Who? Team “May include but not be limited to the director of the local welfare agency or designees, the county attorney or designees, the county sheriff or designees, representatives of health and education, representatives of mental health or other appropriate human services or community-based agencies and parent groups.”

Minn. Stat. 626.558

# Multidisciplinary Team

- ▶ Team Duties
- ▶ Generally - A multidisciplinary child protection team may provide public and professional education, develop resources for prevention, intervention, and treatment, and provide case consultation.
- ▶ “Case Consultation” means a case review process in which recommendations are made concerning services to be provided to the identified children and family

## Multidisciplinary Team

- ▶ Information Sharing
- ▶ The Agency may make available to the case consultation committee, all records collected and maintained by the agency under section 626.556 (Maltreatment Reporting Act) and in connection with case consultation.

## Multidisciplinary Team

- ▶ A member may share information acquired in the member's professional capacity with the committee to assist in case consultation
- ▶ All members must annually sign a data-sharing agreement approved by the Commissioner of Human Services, assuring compliance with Chapter 13. Minn. Stat. 626.558, subd 3

MULTI-DISCIPLINARY ADULT PROTECTION TEAM  
AGREEMENT RELATING TO  
NOT PUBLIC, PRIVATE AND CONFIDENTIAL DATA

Data Sharing Agreement

Data Sharing Agreement

## Multidisciplinary Team

- ▶ All data acquired by the case consultation committee or subcommittee in exercising case consultation duties are confidential as defined in 13.02, subd. 3
- ▶ All data from the case consultation team shall not be disclosed except to the extent necessary to perform case consultation, and shall not be subject to subpoena or discovery.
- ▶ No member shall disclose what transpired in case consultation except to carry out the case consultation plan.

***“What happens in case consultation stays in case consultation!”***
