

FELLOWSHIP

group discount & logistics

AAPPR offers a discount program to employing organizations that already have a group membership established with AAPPR and who wish to take advantage of substantial discounts on multiple AAPPR fellowship program registrations.

Group discounts for online fellowship course registrations and corresponding exams are based on the number of desired course registrations within the same organization seeking fellowship. Discounts are dependent upon all registrations and payment being received at one time. This discount cannot be combined with any other discount. The status of Fellow resides with the individual, regardless of who settles the financial payment. All courses must begin within 120 days of registration or course is forfeited.

This discount does not apply to onsite or live educational offerings.

This discount does not apply to those wishing to take the exam after 12 months of registering for the course. The cost to take the exam after 12 months or without the purchase of a module is \$100.

Each student may only register for one course at a time. This discount does not allow one person to register for the 101, 201, and 301 courses at the same time.

Access begins for all students once payment is received by AAPPR.

No refunds are provided on courses not started by or completed before the stated deadlines.

Once a student has registered for a course, no part of it may be transferred to another student for any reason. Once a group registration has been processed the discount level provided will not change. Any subsequent group discounts will be provided at whatever number of new registrations is being requested at that time.
