“Important Details About Proof of Vaccination and COVID-19 Test Requirements

To help mitigate the risks associated with COVID-19, CCAoA is taking a number of steps to support the safety and wellbeing of our attendees at all of our in-person events.

CCAoA will comply with all federal mandates and follow the current guidance and recommendations shared by the CDC (Centers for Disease Control) regarding COVID-19.

In addition, as of January 2022, CCAoA will require that all participants attending in-person events wear a mask, practice social distancing, and provide either proof of: 1) full COVID-19 vaccination at least 14 days prior to the event; or 2) a COVID-19 negative test result from a laboratory-based test within 72 hours prior to the event.

- Proof of full COVID-19 vaccination can be in the form of a physical vaccination card or a photo of your vaccination card indicating at least 14 days since your second Pfizer or Moderna shot, or since your single Johnson & Johnson shot.

- Proof of a COVID-19 negative test must indicate that the test was taken less than 72 hours before the event. The COVID-19 test should be a negative laboratory-based test. We are accepting both PCR and Rapid Antigen tests. Either a digital or printed copy of your results is acceptable. When presenting your proof of negative test, it must include the type of test, the test date, and the name of the person being tested.

Attendees will also be required to sign and submit a “Waiver and Release of Liability for Communicable Disease” as part of the registration process.”

All required documents (proof of vaccination and waivers - only) can be emailed before the event to events@usa.childcareaware.org or provided onsite during check-in. If you are providing a copy of a negative covid test, you will need to bring it and your wavier onsite during check-in.

All questions related to the COVID-19 requirements should be emailed to events@usa.childcareaware.org.
