

DMSCA Member Portal – Corporate Members Can Retrieve Supplier Data:

- A. Basic Business Profile Information
- B. Industry Group Cluster (s)
- C. Business NAICS Type
- D. Non CMP Certifications (*e.g. ISO, Six Sigma, others*)
- E. CMP Supply Chain Operational Maturity Certification

- **Performance Certification Level 1** – Supplier is proactive in understanding and identifying applicable supply chain plan-source-make-delivery-return-enable processes and their performance attribute metrics: reliability, responsiveness, agility, cost, and asset management.
- **Performance Certification Level 2** – Supplier is Level 1 compliant and has a defined metric-driven unique supply chain strategy (ies) to measure and control supply chain performance and has a cross-enterprise operational maturity improvement strategy that meets either customer and/or industry group performance requirements.
- **Performance Certification Level 3** - Supplier is Level 2 compliant, is company driven, reports performance metrics on bi-annual basis, and continuously improves from year-to-year

- F. Equipment List
- G. Altman Financial Z Score (*permission-based*)
- H. Applicable Manufacturing Type
 - MT1: Discrete fabrication/forming
 - MT2: Discrete assembly
 - MT3: Fabrication & assembly
 - MT4: Continuous process
 - MT5: Mill/roll processing
 - MT6: Batch process
 - MT7: Packaging
 - MT8: Packaging plus batch or process
- I. Applicable Logistics Type
 - LT1: Transportation- Surface
 - LT2: Transportation- Water
 - LT3: Transportation – Air
 - LT4: Warehousing
 - LT5: 3PL
 - LT6: 4PL
 - LT7: 5PL
- J. Applicable Primary Supply Chain Configuration Business Model (for example)
 - P1- Source Stocked Product
 - M1- Make-to-Order Product
 - D1- Deliver Retail Product
- K. Standard CMP Metrics
 - Unique Supply Chain Performance Metric** (*validated by PwC*)
 - RL- Reliability:

- RL1.1 Perfect Order Fulfillment (POF)
- RS-Responsiveness
 - RS1.1 Order Fulfillment Cycle Time (OFC)
- AG-Agility –
 - AG1.1 Upside Supply Chain Adaptability
 - AG1.2 Downside Supply Chain Adaptability
 - AG1.3 Overall Value at Risk
- CO-Cost
 - CO1.1 Total Supply Chain Management Cost (TSCMC)
 - CO1.2 Cost of Goods Sold (COGS)
- AM- Asset Management
 - AM1.1 Cash-to-Cash-Cycle Time (CCCT)
 - AM1.2 Return on Fixed Assets (ROFA)
 - AM1.3 Return on Working Capital

Cross-Enterprise” Operational Maturity

Based on IGC customizable descriptive maturity in 1-10 sublevels of the following high-level areas:

- Commitment to continuous improvement
- Performance and Results
- Management Systems and Planning
- New Product Development and Improvement
- Process Quality Management
- Manufacturing Capability and Improvement
- Sub-Tier Relationship and Control
- Financial and Material Control (*including Financial Z Score*)
- Quality Systems
- Logistics
- IT Systems
- Sustainability (*See Sect C*)

Sustainability Carbon Emissions Data (*via third party assistance*)

- Carbon Emissions Tons CO²
- Air Pollutants Tons or kg
- Liquid Waste Generated Tons or kg
- Solid Waste Generated Tons or kg
- % Recycled Waste Per cent
