IDEATION EVENT FEBRUARY 26, 2020

PLAN TO SEE WHAT'S POSSIBLE

Intel looks for ways to apply its technology to address global challenges while serving as a role model for how companies should operate. We seek to generate more inclusive sourcing, as demonstrated by our goal to increase our annual spending with certified diverse suppliers to \$1B in 2020.

We invite you to the Ideation Event on our Intel campus, in Chandler Arizona. We're asking **procurement professionals across industries**, to share and collaborate to see what's possible in establishing or expanding strong supplier diversity programs. Through panel discussions and break out sessions, we'll discuss the opportunities and challenges, and proven methods on how to achieve program and spend goals.

Wednesday February 26, 2020
Intel Chandler, AZ
9:00am to 4:00pm
