

FEMA Cloth Face Masks Available to Water Wastewater Workers through IOWARN

Water/Wastewater workers are classified as Lifeline Critical Infrastructure by FEMA.

In order to reduce the demand on county and state emergency management, FEMA has provided re-useable/washable cloth face masks for operations personnel in the Water Sector through the WARN (Water/Wastewater Agency Response Network) in each state. <http://www.iowarn.org/> The Iowa contact for IOWARN is John Lins 515-208-1993 lins@dmww.com

Masks will be available for pickup at specific water/wastewater utilities **listed below** in each of the six IDNR Regions. Contact the Distribution Point closest to you to arrange mask pickup.

The current allocation is **1 package of masks per operations employee**. Eligible operations employees are any water/wastewater employee whose job does not allow them to practice social distance with coworkers or the public. The masks can be washed 15 times and reused for an extended time period.

Water/Wastewater Utility's in each region have provided the location and instructions on how to request and pick up masks in a minimal contact manner below. **NOTE:** We encourage you to contact your neighboring communities and pick up masks for them as well. You **MUST** inform the pickup location which systems you are picking up for if they are Water or Wastewater and how many employees at each.

Site # 1: Region 1 - Waterloo

Pickup Location: 325 Sycamore St. Waterloo IA

Pickup Instructions: Email request to: ryan.manahl@waterloo-ia.org **Provide:** Utility name, Water or Wastewater, PWS or NPDES #, and number of employees. Masks can be picked up the following day between 8am – 4pm. Packages will be clearly marked with the Utility name on a table in the front lobby. Problems call:319-356-5160

These masks were made possible by the persistent efforts of the EPA Water Security Division and AWWA Federal Relations representatives lobbying for the Water Sector at the national level. We are very grateful for their representation of our industry.

JOIN IOWARN TODAY

These times highlight the importance of being part of a WARN network. IOWARN is a Water/Wastewater Agency Response (WARN) network, a group of utilities committed to helping each other conduct response and recovery operations. A WARN provides a system of aid that may be utilized by water/wastewater utilities requiring emergency assistance from member utilities.

There is no cost or obligation to be a member, go to <http://iowarn.org/> print and sign the agreement and return a scanned copy to IOWARN Chair, John Lins lins@dmww.com 515-208-1993.
