VHMA Member Donated - Staff Efficiency Survey Sample

1. What could we improve to make your job more efficient?
2. If you could make one thing about your job easier, what would it be?
3. Is there a piece of equipment you need to do your job better?
4. Is there a technology or software to improve your job?
5. Tell us about a job task you perform that is redundant.
6. What step could we eliminate to decrease the redundancy of the task in the last question?
7. Do you have any other suggestions to improve flow and efficiency at this practice?
8. Is there a task that you do regularly that could be eliminated, and we wouldn't compromise patient care or customer service?
