

## Peter Fitzpatrick, Vice President, Payment Networks, Agreement Express

Peter is the Vice President of Payment Networks at Agreement Express, the first enterprise-grade merchant onboarding automation platform in payments. He leads business development and sales for Agreement Express's payments vertical. Before Agreement Express, Peter helped build VersaPay, Canada's fastest growing company in 2009, as an early employee. Peter first became excited about fintech when he experienced the merchant onboarding ease of Square. He has been helping payments companies provide the same experience ever since.

Peter joined Wnet as an Advocate member in March of 2019, and has since connected with and inspired other Wnet members with his passion for advocacy in both his professional and personal life, and his support of gender diversity. He participates in the Wnet Advocates Committee, is a [Wnet Member Ambassador](#) and a mentor in our [Mentor for a Minute program](#). Peter embodies the mission of Wnet members to make the connection and be the connection, and we thank him for his advocacy and support of women in our industry.

Check out Peter's recent blog post, ["There is a secret for building great teams"](#) for his thoughts on the opportunity available for leaders who pursue equality.
