Surprise! An OSHA inspector is at your door! It can happen at any time with no advance warning. The health of your employees and your business depends on being ready.

Safety is good business. Here's why:

- Accidents can cause costly business interruptions.
- Customers and employees expect that your workplace is safe.
- OSHA fines and increased insurance rates are costly.
- Strong workplace safety practices help recruit and retain top talent.
- Safety = Profitability. An effective safety program saves \$4 to \$6 for every \$1 invested, according to OSHA.

Hear from Larry Sperling, a 16-year retired OSHA investigator and Lari Kippen, a 25-year safety industry veteran, on how you can protect your employees and make a huge difference in how your company fares with an OSHA visit.

Reservation deadline for this event is: Sunday, May 13, 2018.
