MINNESOTA SURVEYORS & ENGINEERS SOCIETY

## THIRTY-FIFTH ANNUAL REPORT 1991 Scholarship Program

The Minnesota Surveyors and Engineers Society (MSES) is a professional society dedicated to excellence in transportation engineering in Minnesota. We have over 1,000 members, both men and women, who are engineers, surveyors, planners, technicians, administrators, sales representatives, contractors and construction personnel. All members contribute to the scholarship program through a portion of their membership dues. In addition, members and friends make special donations. The result is a scholarship program which annually assists deserving students interested in transportation engineering.
