

Medical Society of New Jersey's Women Physicians Group

Description

The MSNJ Women Physicians Group seeks to influence and contribute to MSNJ policy and program development on issues of importance to women physicians, and to increase the number and influence of women physicians in leadership roles.

MSNJ Women Physicians Group pursues these goals by:

- Providing a forum for networking, mentoring, advocacy and leadership development for women physicians and medical students
- Monitoring trends while identifying and addressing emerging professional issues affecting women in medicine
- Enhancing cooperation and collaboration with organizations with mutual concerns
- Contributing to MSNJ advocacy on women's health and women in medicine policy issues
- Contributing to MSNJ efforts to increase the membership, participation and leadership of women in MSNJ, organized medicine and throughout professional career.

AMA Women Physicians Section Associate Representative

The MSNJ Women Physicians Group is a member of the AMA Federation. Women physicians who are current AMA members are eligible to participate in the AMA Women Physicians Section (WPS). MSNJ is allotted two Associate Representative positions to serve as liaisons between the AMA WPS and the MSNJ Women Physicians Group. Interested members are encouraged to participate in WPS activities and events. Contact MSNJ for additional information at info@msnj.org.

Membership in MSNJ Women Physicians Group

All women MSNJ members are automatically members of the MSNJ Women Physicians Group. Click [here](#) to view the group. Members who are interested in women's issues may join.

Non-MSNJ physicians: consider joining by [completing a brief membership application](#) on the MSNJ website. Contact MSNJ with any questions at info@msnj.org.
