

South & Central America Regional Early Stage Professionals (ESP) Subcommittee

Subcommittee Scope

The ISCT SCA Regional ESP Subcommittee will work closely with the South & Central America Regional Executive Committee and the global ESP Committee to serve the regional ESP membership, and ultimately contributes to the Society's overarching mission to drive clinical translation of cell and gene therapies worldwide.

Subcommittee Objectives Include:

- Providing mentoring opportunities for ISCT ESPs and increased interactions between ESPs and regional leadership
- Increasing ESP membership across all regions
- Supporting and working closely with the Regional Executive Committees on region specific initiatives
- Building ISCT community and engagement in each region
- Increase abstract and manuscript submissions from ESPs
- Provide resources, career guidance, and support for ESPs to help ensure their success

Subcommittee Projects & Activities Include:

- Focus on engagement and community building in each region through:
 - ISCT website (community forums)
 - Social media
 - *Telegraft* - ISCT newsletter
 - Social media
 - ISCT TV
 - Networking
- Support and work closely with the Regional Executive Committee on larger regional focused initiatives (for example: regional meetings, webinar series, education and training programs, etc.)
- Support and work in coordination with the global ESP Committee on larger ESP focused initiatives

Open Positions:

- Subcommittee Members

- Subcommittee Co-Chair (Regional focus)
 - Will also act as Regional ESP Subcommittee representative on the Regional Executive Committee
- Subcommittee Co-Chair (ESP focus)
 - Will also act as Regional ESP Subcommittee representative on the global ESP Committee

Early Stage Professionals (ESPs) are considered as persons within 10 years of terminal degree or entry into the field of cell therapy.
