

Telegraft Editorial Board Junior Associate Editor – Role Description

Scope

The *Telegraft* is a monthly e-newsletter provided as a benefit to ISCT membership and includes insightful discussions, up-to-date information on critical issues in the field of cell & gene therapy, and community-driven coverage to share ISCT stories.

Position Description

As a Junior Associate Editor, you will work closely with the Editorial Board, comprised of the Senior Editors, Contributing Editors, and fellow Junior Associate Editors. You will participate in monthly meetings with the Editorial Board to develop and review content for the newsletter, ensuring articles address the latest developments in the field, address topics of relevance to the sector, and include a breadth of perspectives and interests for ISCT members.

Applicants from all regions are encouraged to apply.
